Installation & Maintenance.

All fastening locks feature a quick release structure that combines durability and operational efficiency, facilitating quick installation, removal and on-site maintenance at rental events.

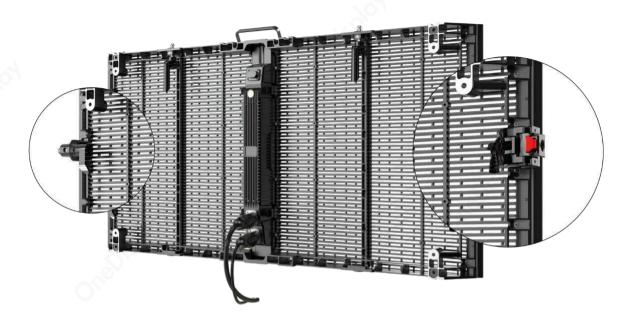

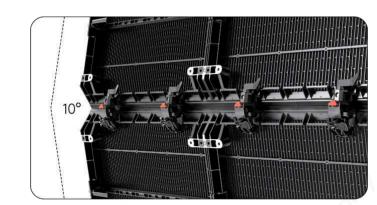

Designed with a polymer encapsulation to provide hermetic protection against mechanical stress and hydrostatic pressure,

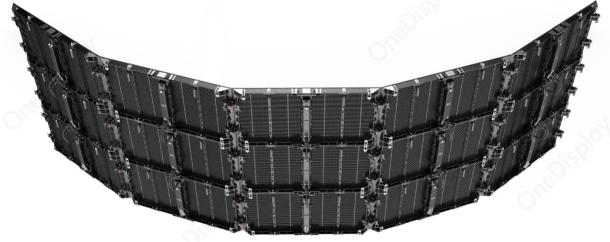

Rear Access Fixed/Maintenance:

Modular & Power Supply feature rear-access maintenance/installation, preserving the clean, unobstructed display space at the front of stages/event venues.

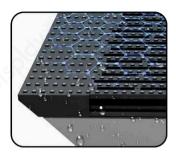

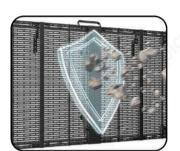

Optional curved lock available

Sleek curved molding for indoor/outdoor use – bend the rules of design and create jaw-dropping displays that make your project unforgettable.

Wigh protective performance

Waterproof enough for monsoons, UV-proof for desert sun, and bump-proof for clumsy crews. No more popped-off LEDs, even when your ladder slips midinstall.

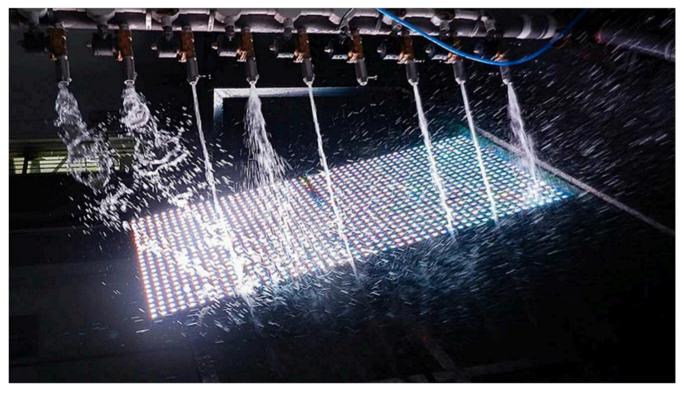

The power supply box and cable connections are waterproof and sealed to minimize failures caused by the external environment.
